

## Spec Sheet

|                                                   |                                                                                                                                                                                     |
|---------------------------------------------------|-------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------|
| <b>Product / Variant</b>                          | LiBa®Safe „M“<br><i>Inner packaging for lithium batteries</i>                                                                                                                       |
| <b>Inner dimensions L x W x H in mm (approx.)</b> | 900 x 655 x 400 mm                                                                                                                                                                  |
| <b>Outer dimensions L x W x H in mm (approx.)</b> | 1020 x 773 x 500 mm                                                                                                                                                                 |
| <b>Net weight in kg (approx.)</b>                 | 70 kg                                                                                                                                                                               |
| <b>Construction</b>                               | Steel tray and cover with compound textile LiBa®Vent gas management system                                                                                                          |
| <b>Manufacturer</b>                               | GelKoh GmbH                                                                                                                                                                         |
| <b>Production year</b>                            | From 2020                                                                                                                                                                           |
| <b>Extinguishing system</b>                       | -                                                                                                                                                                                   |
| <b>Release</b>                                    | -                                                                                                                                                                                   |
| <b>Features</b>                                   | LiBa®Vent system - gas permeable with particle barrier, HF-absorbing, internal coating according to DIN 4102-1 / A, non-flammable                                                   |
| <b>Additional features</b>                        | Special closures with corresponding protective strips, suitable for pallet truck and fork lift                                                                                      |
| <b>Field of application</b>                       | Inner packaging according to ADR quarantine zone / storage area<br><i>For outdoor storage: protect, cover, place underneath canopy etc., or order a rain cover as an accessory!</i> |
| <b>Gas management</b>                             | In accordance with ADR, HF-absorbing                                                                                                                                                |

The manufacturer hereby certifies the self-monitoring of the product as well as the QA system recognized by BAM.  
The production was carried out in accordance with the drawings and standards.
